

Instructions – Herbicide Worksheet

The herbicide worksheet is broken into four sections. The “Private Applicator” sections are for herbicide costs associated with landowners applying a single herbicide or a tank mix of herbicides to their own land. The “Commercial Applicator” sections are for herbicide costs associated with landowners who will be hiring a commercial applicator to apply the herbicide(s) to their land.

Click on “Add” in one of the herbicide sections to start adding a single herbicide or a tank mix of herbicides.

Application

00982 - AGR NWTF 2012 LC - New TEST

Project Title: 01129 - Jan. 30th LC - NEW_Kj

Program Area: AGR Noxious Weed Trust Fund

Proposal Deadline: 03/16/2012

Instructions

Once the herbicides have been added below, click "Edit" then "Save" in order to make the form ready to be "Marked as Complete". **REMEMBER:** the herbicides listed and approved through the Environmental Assessment process will be the **only** herbicides the grant participants will receive cost share from the grant.

Single Herbicide - Private Applicator [Mark as Complete](#) | [Go to Application Forms](#) [Add](#)

Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Active Ingredients	Cost/oz.	Rate	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Acres Treated	Total Amount	50% Cost Share
							0.00	\$0.00	\$0.00

Herbicide Tank Mix - Private Applicator [Add](#)

Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Herbicide Tank Mix	Cost/Acre	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Acres Treated	Total Amount	50% Cost Share
						0.00	\$0.00	\$0.00

Single Herbicide - Commercial Applicator [Add](#)

Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Active Ingredients	Cost/oz.	Rate	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Application Cost per Acre	Acres Treated	Total Amount	50% Cost Share
								0.00	\$0.00	\$0.00

Herbicide Tank Mix - Commercial Applicator [Add](#)

Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Herbicide Tank Mix	Cost/Acre	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Application Cost per Acre	Acres Treated	Total Amount	50% Cost Share	
								0.00	\$0.00	\$0.00

To enter a Single Herbicide for your project follow the steps below:

- 1) Click on the dropdown list for the herbicide Active Ingredients allowed for Trust Fund projects. Select a herbicide.
- 2) Then enter the rate to be used in **ounces** of product per acre. For example, a rate of 1 pint/acre should be entered as 16 ounces/acre or 1 quart/acre should be entered as 32 ounces.
- 3) Select an application type.
- 4) Click on the dropdown list for herbicide additives if you plan to use one with the selected herbicide.
- 5) Select a weed to be treated or select multiple weeds. To select multiple weeds, press & hold down the Ctrl key on your key board while selecting the weeds to be treated.
- 6) Enter the number of acres that will be treated with the herbicide and additives. Click "Save" when done.

The steps are similar for Single Herbicide – Commercial Applicator, except there is one additional box to complete called "Application cost per acre". Enter the dollar amount for the commercial applicator to treat the noxious weeds.

Application

00982 - AGR NWTF 2012 LC - New TEST

Project Title: 01129 - Jan. 30th LC - NEW_Kj
Program Area: AGR Noxious Weed Trust Fund
Proposal Deadline: 03/16/2012

Instructions

Once the herbicides have been added below, click "Edit" then "Save" in order to make the form ready to be "Marked as Complete". **REMEMBER:** the herbicides listed and approved through the Environmental Assessment process will be the **only** herbicides the grant participants will receive cost share from the grant.

Single Herbicide - Private Applicator

Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

1) Active Ingredients*
Select one.

Cost/oz.
DO NOT enter cost.

Application Rate in Ounces per Acre

2) Rate*
Enter ounces (oz)

3) Application Type*

4) Herbicide Additive
None
Optional.

Cost/Acre
DO NOT enter cost.

5) Weeds to be Treated* ☐ Blueweed
☐ Canada Thistle
☐ Common Tansy
☐ Curlyleaf Pondweed
Please press Ctrl + Click to select multiple items

6) Acres Treated*

Return to Top

Entering a Herbicide Tank Mix for your project is similar to the Single Herbicide steps except the rate is listed on the same line as the products. You do not enter the rate/acre for the products. For example, the red arrow at the top of the list, is pointing to Chaparral/2,4-D Amine – 3.3oz/32oz that is saying for this tank mix the herbicide Chaparral will be applied at 3.3 oz/acre and 2,4-D Amine will be applied at 32 oz/acre in the tank mix.

These are the approved tank mixes for Trust Fund projects. If your application has other tank mixes and single herbicides you will have to make adjustments in using only those herbicides listed in the dropdowns.

The screenshot shows the Montana Grants and Loans application interface. The header features the Montana logo and the text "Grants and Loans". The navigation bar includes links for Menu, Help, Log Out, Back, Print, Add, Delete, Edit, and Save. The main content area is divided into sections: Application, Instructions, and Herbicide Tank Mix - Private Application. The Application section displays the project title "00982 - AGR NWTF 2012 LC - New" and the program area. The Instructions section provides guidance on adding herbicides. The Herbicide Tank Mix section includes a dropdown menu for selecting a tank mix, a text input for Cost/Acre, a dropdown for Application Type, a dropdown for Herbicide Additive, another Cost/Acre input, a list of weeds to be treated, and a text input for Acres Treated. A red arrow points to the top of the tank mix dropdown menu, which lists various herbicide combinations and their rates. A red circle highlights the Save button in the top right corner.

Please press Ctrl + Click to select multiple items

Acres Treated*

When finished with this entry, click on "Save". Repeat these steps until you are done adding herbicides to this form.

Now you can review, update, or delete a herbicide entry on this form by clicking on the name of the product(s) that are listed on your herbicide form. Continue to Page 5 of these instructions for more detail.

Instructions
Once the herbicides have been added below, click "Edit" then "Save" in order to make the form ready to be "Marked as Complete". **REMEMBER:** the herbicides listed and approved through the Environmental Assessment process will be the **only** herbicides the grant participants will receive cost share from the grant.

Single Herbicide - Private Applicator [Mark as Complete](#) | [Go to Application Forms](#) | [Add](#)
Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Active Ingredients	Cost/oz.	Rate	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Acres Treated	Total Amount	50% Cost Share
Aminopyralid (Milestone)	2.14285700	7.0	Ground	Hi Lite Blue Dye + Surfactant (non-ionic)	6.00000001	Canada Thistle, Diffuse Knapweed, Meadow Hawkweed, Orange Hawkweed, Spotted Knapweed	150.0	\$3,150.00	\$1,575.00
							150.00	\$3,150.00	\$1,575.00

Herbicide Tank Mix - Private Applicator [Add](#)
Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Herbicide Tank Mix	Cost/Acre	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Acres Treated	Total Amount	50% Cost Share
						0.00	\$0.00	\$0.00

Single Herbicide - Commercial Applicator [Add](#)
Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Active Ingredients	Cost/oz.	Rate	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Application Cost per Acre	Acres Treated	Total Amount	50% Cost Share
								0.00	\$0.00	\$0.00

Herbicide Tank Mix - Commercial Applicator [Add](#)
Click on "Add" to enter a herbicide product for this project. Click on "Save" when done, then repeat the steps until all the herbicide products are listed.

Herbicide Tank Mix	Cost/Acre	Application Type	Herbicide Additive	Cost/Acre	Weeds to be Treated	Application Cost per Acre	Acres Treated	Total Amount	50% Cost Share
Escort / 2,4-D Ester 1oz / 16oz	9.50000000	Ground	Hi Lite Blue Dye	4.00000000	Common Tansy, Hoary Alyssum, Houndstongue	\$88.00	110.0	\$11,165.00	\$5,582.50
							110.00	\$11,165.00	\$5,582.50

Totals
If you have selected "Other-County Listed" as a weed to be treated in any of the sections above, click on "Edit" (at top) and enter the name(s) of the County Listed weed(s) you are planning to treat. If you enter more than one weed name, separate each weed name with a comma.

Other-County Listed Weeds
Total Acres Treated: 260.0
Total 50% Share \$5,582.50
Contracted Services \$1,575.00
Supplies/Materials

If you selected "Other-County Listed" in the Weeds to be Treated dropdown, you will need to list the other-county listed weeds that you plan to treat in this Trust Fund project.

Notice that WebGrants automatically adds the acres treated from the above sections and puts them in the "Total Acres Treated" box. The same is true for the total cost share dollar amount for Contracted Services (commercial applicator cost share) and Supplied & Materials (private applicator cost share). Those two totals are automatically inserted on the budget form. The matching amounts are not automatically entered and will need to be inserted by the applicant when completing the budget form.

If needed, you can update or delete this herbicide entry. Clicking on “Delete” will remove this entry from the herbicide form. But if you are only updating this herbicide entry you can change all the areas circled in red.

[Return to Top](#)

When you are done updating this entry, click on “Save”. If you do not make any changes you can click on the “Back” button or the “Save” button.

Totals

If you have selected “Other-County Listed” as a weed to be treated in any of the sections above, click on “Edit” (at top) and enter the name(s) of the County Listed weed(s) you are planning to treat. If you enter more than one weed name, separate each weed name with a comma.

Other-County Listed Weeds

Total Acres Treated: 260.0		
Total 50% Share: \$5,582.50		\$1,575.00
	Contracted Services	Supplies/Materials

Department of Agriculture will adjust totals not calculating as whole dollar amount(s) by rounding up or down. Adjust Budget will only be used if contract negotiations are required.

Adjust Budget amount: \$0.00		\$0.00
	Contracted Services	Supplies/Materials

If needed, Department staff will make adjustments to calculate herbicide costs to whole dollars. For example, the adjustment for this one would be to add \$0.50 to the Contracted Services. Once all herbicide information is entered for your project, click “Edit”, “Save”, and “Mark as Complete”.

Instructions – Revegetation Worksheet

The Revegetation Worksheet is similar to the Herbicide Worksheet in how to enter a seed mixture. Click on “Add” to enter a seed mixture along with all the required information for this entry, click on “Save” when done with the entry. The applicant must enter the “50% Cost Share” total to the Supplies & Materials – Other, or Contracted Services – Other on the budget form. This form does not automatically move any information to the budget form. If your project is not requesting cost share for revegetation just click on “Mark as Complete”.
